

ASBC Approved Methods Beer – 35

Total Polyphenols (International Method)

Concentration of polyphenols in mg/L is given by $A_{600} \times 820$ and is reported as a whole number.

Total Polyphenols - International Method

Absorbance at 600 nm

Result

Polyphenols, mg/L

$$\begin{aligned} \text{Polyphenols, mg/L} \\ &= 0.128 \times 820 \\ &= 105. \end{aligned}$$
